'Digital Literacy Awareness Quiz'

1. You receive an urgent email claiming to be from your bank. It states your account will be suspended unless you click a link and verify your password immediately. What is the safest course of action?

Mark only one oval.

- Click the link and quickly verify your details to avoid suspension.
- Reply to the email asking for more information.
- Do not click the link; log into your bank account separately through the official app or website to check for alerts.
- Forward the email to your friends to warn them.

2. In your own words, briefly explain what makes a password "strong" and secure against common hacking attempts.

_____

3. Which of the following are responsible practices to follow before sharing a news article on your social media feeds? (Select all that apply)

Check all that apply.

- [ ] Read past the headline to understand the full context.
- [ ] Share it immediately if the headline aligns with your personal views.
- [ ] Check the publication date to ensure the information isn't outdated.
- [ ] verify the credibility of the website or the author.

4. 4. What does the term "Digital Footprint" refer to?

Mark only one oval.

- The physical tracking data collected by your smartphone's GPS
- The amount of carbon emissions generated by manufacturing your laptop
- The total amount of storage space your files take up on a cloud server.
- The permanent trail of data you create and leave behind while using the internet.

5. . You are using a public computer at the university library to check your email and download an assignment. What is the single most important security step you must take before walking away from the computer?
